

WHAT WILL WE HAVE DONE BY NOVEMBER 2009 ?

- Scale-up programmes for the poorest, show real numbers, not 'tokenism'.
- Use the global melt-down to focus on client savings as a source of funds
- Focus on remittances, pensions, other non-credit services
- Improve and expand insurance offerings – credit alone is NOT complete micro-finance
- Develop livelihood strategies, micro-finance alone cannot eliminate poverty
- Clarify regulations and roll-out branchless banking
- Ensure transparency in prices of financial services
- Develop a vision for the future of SHGs
- Reduce government mis-use of SHGs
